

## **Come and be INFORMED, INSPIRED AND ACTIVATED**

Stephanie Gray - Canadian Centre for Bio-Ethical Reform is best know for debating key proponents of abortion at Universities including doctors who commit abortions. See her in action at [unmasking choice.ca](http://unmaskingchoice.ca). Here is a great opportunity to learn directly from someone who is successfully debating the abortion issue.

Alissa Golob – Campaign Life Youth is currently inspiring both young and old to fight to Defund Abortion. She will be giving a report on the Defund Abortion Rally that took place on October 22nd in Toronto at Queens Park, and looking at what's next and how we may best participate.

Jack Fonseca – Reviews the Equity and Inclusive Education Policy: Here is what the EIE is going to put in the classroom. Here is what the EIE is going to put in your children's heads and Here is why the EIE is harmful.

Lou Iacobelli – “Parental Rights in Education Defense Fund” - What is the fund?, and how it is already beginning to support parents in the fight to choose what moral and ethical education is taught to their children. Lou will examine how the newly formed Parental Rights in Education Defense Fund can accomplish this. When other avenues have been exhausted, the courts unfortunately are a necessary option.

Jim Hughes – Campaign Life Coalition National President will discuss some of the important issues CLC is currently addressing, especially the need for Grassroots participation; the impetus that inspired the decision to have these forums. We intend to Inspire, Inform and Activate pro-life pro-family Canadians to discover how they may join the front lines.

Paul Tuns – Editor of The Interim Canada's Pro-life and Pro-Family newspaper will be discussing the need for honesty and integrity in journalism; two elements that are absent from most media sources today.

John-Henry Westen - Co-Founder and editor of LifeSiteNews will discuss how their presence as an online news service is providing daily up to date reporting on the issues most important to Pro-life, Pro-Family supporters world-wide.

Alex Schadenberg - Director of Euthanasia Prevention Coalition is currently speaking all over North America. His experience and insights are most helpful in educating all Canadians of the need to fight against the legalization of Assisted Suicide and Euthanasia ; practices that are already being performed in Canada.

Father Alphonse de Valk – Editor of Catholic Insight Magazine discusses the need for the Canadian church to teach the true, authentic Catholic position on moral issues. The current position of the Canadian Catholic Hierarchy is misleading the general Catholic populace to support the immoral choices of our Catholic schools and Catholic individuals whom are in positions of authority.
